

Quality primary care and support for teens

Peace of mind for parents and guardians

Parenting a teen is no small feat—between busy schedules, emotional changes and growing independence, it's a lot to manage.

Teen Primary Care from Teladoc Health offers high-quality, flexible care that fits into real life—no missed work or school, no long waits, just peace of mind. Schedule a phone visit for your teen with a primary care provider of your choice. Available weekdays 7 AM to 6 PM local time and Saturdays 7 AM to 12 PM local time.

Teen Primary Care can help with:

- Ongoing health issues like acne, asthma or sleep problems
- Common concerns like colds, flu, sunburn and UTIs
- Prescriptions when appropriate

Teen Primary Care can't help with:

- Annual wellness exams or physicals
- School or camp forms
- Prescriptions for controlled substances (such as ADHD medications)

A parent or guardian must schedule and be present during the visit.

Get trusted care for your teen with:

- Board-certified primary care providers specializing in pediatric and family medicine
- Convenient virtual visits that work with your family's busy schedule
- Up to 20 minutes of dedicated time with your teen's provider
- Coordination with in-person providers for annual exams and sports physicals
- Unlimited care team support

Your teen deserves care that fits their world—and yours.
