Keeping cars cool for nearly 100 years

Chemours™

Opteon™ YF (R-1234yf) Refrigerant with Leak Stop enables DIYers and technicians to service cars running on R-1234yf. This product replenishes lost refrigerant to increase A/C system cooling and contains technology to promote sealing in common o-ring, gasket, and hose leaks.

Opteon™ YF with Leak Stop comes in a 14 oz and 21 oz recharge kit (contains a locking push button dispenser, PSI gauge, and quick connecting coupler), or a 12 oz self-seal can. Opteon™ YF is the cooler choice for your car and the planet. It's as easy to use and cools as effectively as R-134a, but with 99.9% less global warming potential (GWP). Since 2015, R-1234yf has been widely adopted by automotive OEs globally for use in new vehicles.

Are you prepared to service vehicles with R-1234yf? Choose Opteon™ YF with Leak Stop!
